

Ask The Expert:

Making Memories

Nigel and Glenda run Memories in Bay, taking their classic VW camper to weddings as both quirky transportation and a selfie photo booth. Here, they tell us about their services and how they help couples to make lasting wedding memories...

What inspired you to start Memories in Bay?

We're both creative types and wanted to do something unique and exciting. We both have a love for being part of joyful moments and helping couples create memorable experiences. Our passion for starting and growing a business in the events industry, led us to the idea of merging our skills and ownership of our classic VW campervan to provide a niche, personalised service. Memories in Bay was born and we haven't looked back. It gives us both such great pleasure when our clients tell us how much Memories in Bay services has added to their special day.

You offer transport and a photo booth - do you have a favourite?

Our selfie photo booth offers a fun and creative way for guests to engage at their special event, while our classic VW campervan wedding transportation services add elegance and convenience to the wedding day. Because we enjoy offering both services it would be too difficult to choose.

Can you tell us about some of your wedding packages?

Our wedding transportation silver package for a three hour service starts at just £329 and includes the following:

- Seating for six guests (please note only 3 passenger seats have seat belts)
- Smartly dressed chauffeur
- Bottled water is provided as a complimentary part of the service
- Ribbons in your choice of colour
- 'Just Married' sign
- Flower garland for front dash
- Music of your choice

Our selfie photo booth standard package at £299 includes the following:

- 3 Hours of unlimited visits. (Please note; we currently offer a digital only service)
- Choice of photo booth templates and option to add personalised text

- Vintage suitcase with a range of themed props
- Helpful photo booth attendant
- Online gallery of all your photos
- Choice of backdrop

Have you seen wedding trends change since you started out?

Yes we have. Over the past few years, wedding trends in the UK have evolved significantly, reflecting broader societal shifts and individual preferences. Key changes include couples moving away from traditional banquet halls, opting instead for venues that align with their personalities and interests. This trend includes outdoor weddings, garden ceremonies, and receptions at favourite restaurants or country houses, allowing for more tailored and memorable experiences.

Also the concept of micro weddings, typically involving a small number of guests, has gained popularity.

This trend offers a more personal and cost-effective alternative to large-scale weddings, allowing couples to focus on quality over quantity.

What are your top tips for couples when it comes to finding and booking their wedding transport?

Wedding transportation is often in huge demand, especially during peak wedding seasons. Consider securing your preferred vehicle and time slots well in advance to avoid disappointment. We'd also recommend choosing transportation that aligns with your wedding theme or style. A stylish or unique vehicle can double as a great photo prop. Memories in Bay can personalise ribbons, flower garland and music to meet your requirements too.
